1. The following is an examiner's statement of reasons for allowance: Applicant's declaration has shown that the present invention differs from the prior art of Tonar '283 and Tonar '572, which as shown by the experiments in the declaration do not teach a gel which is self-healing. It is apparent that although the cross-linked polymers of Tonar contain similar crosslinkers and functional groups as in the present invention, the different concentration of the functional groups in the present invention render the self-healing properties not found in Tonar.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Philip C. Tucker whose telephone number is 571-272-1095. The examiner can normally be reached on Monday - Friday, Flexible schedule.
